A self-motivated, passionate & extremely driven developer with a vast array of knowledge in many different front-end & back-end languages, responsive frameworks, database, & best code practice. I'm a problem solver & dedicated to perfecting my craft by learning from more seasoned developers, remaining humble, & continuously making strides to learn all that I can about development. I work well under pressure and can deliver reliable results.

AWS
Wordpress

EXPERIENCE

Shopify Developer

Locksmith Keyless | August 2020 - present

- Customizing and adding new features to Shopify Theme
- Updating website in order to meet changing information requirements, like adding new functionalities, redesigning UI, fixing bugs etc.
- Testing, monitoring, and improving website performance
- Working closely with Digital Marketing Team

Software developer

Software Factory | August 2019 - November 2020

- Building Shopify e-commerce websites using HTML, CSS, Javascript & Liquid
- Building Web Applications & Mobile App using React, Vue.js, Node.js, Express, GraphQL, API, MySQL, Apollo Client & Expo.

Summer Boot Camp Instructor

FVI School of Technology | June 2020 - August 2020

- Teaching Web Development online to high school students

Teaching Assistant

LaunchCode | June 2019 - February 2020

PROJECTS

TranZsend

Developed TranZsend website using React.js and deployed it to AWS S3.

I also developed TranZsend Mobile App (partially) that let users create an account, adding bank accounts, debit / credit cards to the account. I used Expo, Material-UI, AsyncStorage, Node.js, Express, GraphQL, MySQL, Plaid SDK and Stripe SDK.

BusinessRate

Developed Full Stack Web Application that let users search for nearby Businesses using Location, Business Name or Category. Users can also suggest & review a Business. Business owners can create an account, list & manage their Businesses on BusinessRate. I used Vue.js, Node.js, Express, GraphQL, Apollo Client, MySQL, localStorage, Mapbox API & deployed the web app with nginx on Ubuntu.

NetDetective

Developed Shopify Private App that let users run background checks using Full Name or Phone No or Email address. I fetched data from Background Check APIs and created RESTfull API using Node.js, Express and MySQL.

Modefuel

Developed a part of Shopping Advisor Chatbot using Shopify Storefront API, ManyChat, Node.js, Express, and MySQL.

EDUCATION

FVI School of Technology

July 2018 - May 2019 | Diploma in Full Stack Development

University of Applied Sciences Darmstadt, Germany

March 2013 - March 2016 | Bachelor in Engineering (EIT)
